

WORKSHOP

from the Training Centre of TWO KEY LLP

As you know, Kazakhstan intends to introduce international reporting standards for resources and reserves of solid minerals.

In the conditions of global economic crisis and competition in the mining industry, investors' confidence in reporting mineral resources and reserves is a crucial factor for investment decisions.

TWO KEY LLP offers its services in conducting a **topical workshop** on this subject:

Modern Techniques for Estimating Solid Mineral Deposits

Speaker: Barry John Davies

Independent JORC qualified expert in gold, silver, copper, lead, zinc, iron ore and uranium. Consultant to BMI Resources Hong Kong and recognised independent iron ore expert on the Hong Kong Stock Exchange (HKSE). 30 years of experience in the mining industry, of which 17 years in Central Asia.

The **1-Day** Workshop will cover the following topics:

1. CRIRSCO/JORC International Resource Classification: similarities and differences with SRC standards.
2. The role of the Competent Person in CRIRSCO/JORC.
3. The importance of QA/QC in JORC classification.
4. Main reasons why global capital markets only accept the reporting of reserves according to international standards.

Bonus: *The use of modern mining geological information systems in 3D resource modelling.*

The workshop lasts **one day**, and the minimum number of participants is **6**.

The cost of the above services for 1 person is **300,000 KZT, VAT included***.
(in case of conducting the workshop on the basis of Two Key LLP's Training Centre)

**In case of training at the Client's company, the cost will be agreed upon separately.*
